

## **We are hiring**

# **Intern IT-Strategy and Digitalization!**

### **What we offer**

At Ginkgo you can find challenging projects with multinational context, a great amount of entrepreneurial liberty and constant growth. Additionally, Ginkgo is formed by a strong team spirit, which is based on appreciation and support throughout the company. We offer excellent career opportunities and individual career development. For supporting our clients and consultants, we need an intern/trainee for the following areas (asap):

- Supporting the development of business models / business cases and holistic digitalization strategies
- Supporting of project – and program management through traditional and agile methods
- Supporting the execution of process analyses
- Conducting of market- and competition analyses
- Preparing, supporting and follow-up tasks of workshops and presentation material
- Supporting the process of offer creation and submission

### **Requirements**

You are an analytical thinker with strong social communicative skills. You feel confident working with a team in challenging and dynamic environments. Apart from your self-initiative and can-do mentality, you offer:

- University student with major IT, information science and/or business management
- Affinity for digitalization and IT
- Already accomplished consultancy internships are advantageous
- Analytical thinking and problem-solving skills; strategic mind-set
- Ideally project management experience (i.e. PMP / Prince 2, SCRUM)
- A high level of passion and dedication; entrepreneurial spirit, and hands-on mentality
- Fluent in German and English, other languages are an advantage

Ginkgo Management Consulting believes in open and straightforward communication driven by a strong team spirit. Core values such as client orientation, job commitment, trust, and integrity are prerequisites for applicants.
